

guess internet hope hard top transactions agree
start nano future pretty fuck bought binance fucking investment
huge months bad post eth coins day shit coinbase invest
xrp buying world coin bitcoin exchange usd tech
lose true price time buy worth transaction
scam idea news btc people market fiat ago credit
sold iota yeah lol lot makes company stop fiat wallet gold
low run blockchain pay bank free
talking account cash term government wrong technology
gains life exchanges guy fees understand days happen
cryptocurrency trading network reason trade feel
system lost
